Dan,

Archive:

Attached are EPA's comments on the SOP for CAFO NPDES permit applications. At this time, I cannot approve or approve with modifications. As noted in the attached comments, not all actions have associated timeframes and not all Part 502 requirements are included in the "checklists" used by the permit reviewer to determine if the application is complete. I would like to set up a time for you and I to discuss the attached comments and questions to see if we can move toward a version that can be approved or approved with modications.

Please let me know your availability to discuss over the next few weeks. I am working outside of the office this week, so, if you would like to contact me via phone please contact me at 219-926-6405. Thanks.

Julianne
